

INTERNSHIP/ CLINICAL ROTATION RESPONSIBILITIES

01

LPNs are responsible for monitoring their patient's health, administering primary care, and ensuring the basic comfort of patients.

02

LPNs must also communicate clearly with patients, help them understand the care they are providing, and listen to their concerns.

03

Additionally, our nurses can expect to work closely with our providers (MD's/D.O.'s, PA's, and NP's) with the mutual goal of providing exceptional care.

Our team gardening day last spring, cleaning up our Wellness & Healing Garden

NURSING TEAM

LICENSED PRACTICAL NURSE

About Us

Inspired Health Group (IHG) is a true family practice serving patients of all ages from across Western New York. Founded and operated by the Erickson family, IHG offers innovative body, mind and spirit healthcare services with a personalized approach that increases a patient's awareness and involvement in their own health and wellbeing. IHG's board-certified physicians, highly trained nurse practitioners, physician assistants, registered nurses, registered dietitian nutritionists, and patient services team set IHG apart with their professionalism and compassion, providing full and complete individualized care to patients.

What do we offer?

TRUSTED EXPERIENCE

Since IHG opened its doors in 2001, it has become a trusted source of care. With over 500 5-star Google reviews along with awards, such as being recognized as a Patient Centered Medical Home (PCMH) by NCQA IHG has led the way in innovation of care.

BODY, MIND & SPIRIT CARE

With a focus on body, mind and spirit healthcare services, IHG offers a diverse range of care options. From state of the art cancer testing, to our partnership with *Endeavor Health Services* to offer behavioral health services on the second floor of our building, you will learn from a care model that focuses on both health and wellness of each patient.

DIRECT ACCESS TO PROVIDERS

We are a close-knit, collaborative team with less than 50 team members in our office. You'll learn directly from leadership, providers, and nursing & patient services team members throughout your internship.

Additional responsibilities

- Carefully taking vital signs
- Actively listening to patients and express any problems and collect important patient information
- Report changes in the patient's health status to the RN or the doctor in charge
- Keep accurate and careful records of a patient's health within our EMR.
- Recording the patient's medical history. A fundamental part of the job, accurate recording of the patient's situation, will dictate subsequent patient care decisions.
- Collecting samples for routine laboratory testing
- Offering basic levels of care such as, changing of bandages, inserting catheters, cleaning and dressing wounds.
- Providing empathic emotional support to the patient and the family

4.9 rating from 565 reviews
