

# ADVANCED PRIMARY CARE MANAGEMENT *explained*

We want to sincerely thank you for supporting the **Advanced Primary Care Management (APCM)** initiative that Medicare implemented in January of 2025.

Insurance covers the basics of your medical care, but it doesn't cover the time, coordination, preventive, and innovative services we offer at Inspired Health Group.

The APCM fee makes it possible for us to provide access, care planning, and on-going multifaceted communication. This communication may include

- addressing or managing referrals
- dealing with medications/pharmacies
- laboratory and medical records
- both incoming and outbound processing
- technology access
- telehealth
- data analytics

## ***By supporting APCM:***

You are investing in a better, long-term personalized care model that allows us to sustain our independent, intimate, non-institutional, small group atmosphere.

Your insurance company will be billed each month. We do not know if there will be a copay or any partial cost sharing to you with these fees.

We believe for the first time in a long time that there is a priority being placed on the care and relationship we have with each of you. Thank you again for supporting the care we want to give and the relationship we have with our patients.

***Wishing you well,***

Your Inspired Health & Wellness Care Team
